Back-End Technologies: Node.js, Express.js, PostgreSQL, Redis
Databases: Drizzle ORM, MongoDB, Prisma ORM, Supabase
Version Control: Git, Github
DevOps: Microservices, Docker, Cloudflare Pages, Cloudflare R2
AI/ML: DeepSeek LLM Integration, Prompt Engineering, Groq AI (Whisper, Llama 3.3)
Languages: Spanish Native, English B2 Intermediate Advance

PROFESSIONAL EXPERIENCE

al1A (Talent Development & Organizational Health Platform) Full Stack Developer	Jalisco, Mexico 09/2025 - Present
- Developed a Next.js 16 frontend with SSR, i18n, and 8-level role-based authorization, achieving <2s page loads via React Server Components. - Built an AI-powered profiling system using LLM integration for NOM-035 behavioral analysis with 95%+ confidence across 86 psychometric questions. - Architected 5 independent microservices (Auth, Company, File, API Gateway) with JWT, Redis, and PostgreSQL/Drizzle ORM, reducing latency by 40%.	
Freelancer Full Stack Developer DOK Imagen Dental	Manzanillo, Col 01/2026 – 04/2026
- Built a multi-role web platform (Admin / Doctor) for dental clinics using Next.js 15, Supabase Auth, and Row Level Security for strict data access control. - Implemented secure medical document storage on Cloudflare R2 with presigned URLs and automated clinical report generation using jsPDF. - Deployed on Cloudflare Pages with Edge Runtime for optimal global performance.	
Full Stack Developer · Master's Project Learning Analytics Platform	Colima, Col 08/2023 – 07/2025
- Developed an educational analytics platform enabling teachers to monitor student behavior in videos with real-time event tracking dashboards. - Integrated Groq AI (Whisper Large V3) for automatic video transcription and Llama 3.3 70B for contextual content analysis. - Built on Next.js with Cloudflare R2 storage and Edge Runtime, deployed on Cloudflare Pages for minimal global latency.
